

Gulf Classic Motor Oil for Classic Cars

Product Description

Gulf Classic oils are developed for Classic cars running on gasoline and diesel engines. These oils are formulated using high quality mineral oils and performance additives along with supplementary anti wear additives to provide enhanced protection against wear.

Features & Benefits

- Very good lubrication of engine parts.
- Supplementary additive provides excellent protection against wear.
- High protection against corrosion.
- Compatible with classic seals and rubbers.
- Good anti-foam properties.
- No danger of encrusted dirt becoming unstuck.

Applications

- Suitable for use in Classic Cars running on gasoline and diesel engine & requiring such type of oils.

Specifications, Approvals & Typical Properties

Meets the Following Specifications		30	50	20W-50
API SF/CF		X	X	X
Typical Properties				
Test Parameters	ASTM Method	Typical Values		
Viscosity @ 100 °C, cSt	D 445	11	18	17
Viscosity Index	D 2270	95	95	115
Flash Point, °C	D 92	>201	>201	>201
Pour Point, °C	D 97	-21	-15	-21
TBN, mg KOH/g	D 2896	5.2	5.2	5.2
Density @ 15°C, Kg/l	D 1298	0.894	0.902	0.893

April 2016

Properties mentioned above are typical only and minor variations, which do not affect the product performances, are to be expected in normal manufacturing. The above information is based on past history of the grade only and must not be construed as a guarantee of performance. Follow equipment manufacturer's recommendations for performance level and viscosity grade. The Material Safety Data Sheet for this product is available from your nearest Gulf Distributor.
